11. Evaluation and selection criteria

The evaluation and selection process will be conducted 2 consecutive stages, according to the merit of the candidate and based on the following (weighted) criteria:

Stage 1

Criterion A: Academic degrees (20%), based on the final classifications indicated in the Bachelor’s+Master’s/Integrated Master’s diplomas/certificates;

Criterion B: Previous experience in conducting interviews with children, articulating with pre-school education (institutions and professionals), knowledge of digital platforms, as shown in the candidate’s CV (60%);

Criterion C: Motivation and interest in the field, as shown by the candidate’s motivation letter (20%).

Applications will be evaluated, and candidates ranked, on a 0,00 – 20,00 scale. The final classification os Stage 1 will result from the application of the formula:

$$\text{Stage 1} = (\text{Criterion A} \times 20\%) + (\text{Criterion B} \times 60\%) + (\text{Criterion C} \times 20\%)$$

Candidates ranked in the first 3 positions of Stage 1, that is, with the highest score in descending order, will be admitted to Stage 2 of the evaluation process and invited to an Interview. Candidates tied in the top 3 positions of Stage 1 will be admitted to the second stage of the evaluation process.

Stage 2

The Interview will focus on the following criteria: 1) Previous contact with research-related environments; know-how of instruments, methodologies, and proficiency in digital platforms and

software relevant to the project; motivation; communication skills (including English proficiency). These criteria will be evaluated on a 0,00 – 20,00 scale by Evaluation Panel members.

The final classification of the applications admitted to the second Stage will be obtained via the formula:

$$\text{Final Classification} = (\text{Stage 1} \times 50\%) + (\text{Stage 2} \times 50\%)$$

For tie-breaking purposes, the ranking of the candidates will be based on the classifications assigned to each of the evaluation criteria in the following order of precedence: Stage 2 – Interview; Stage 1 – B) previous experience as shown in the candidate's CV; C) motivation letter; and A) academic degrees.

If none of the candidates presents the appropriate and/or necessary skills and competences required for the position and respective work plan, the Evaluation Panel has the right to not attribute the fellowship.

Note for the evaluation of Criterion A (Stage 1):

1 – The final average of Bachelor's+Master's degrees in a pre- or post-Bologna course results from the simple arithmetic average of the final grade obtained in the 1st cycle [(180 ECTS)/Bachelor's] and the final grade obtained in the 2nd cycle [(90-120 ECTS)/Master's];

2 – In the case of Integrated Master's awarded by institutions that do not issue certificates with discrimination of the final grades of 1st and 2nd cycles, the final classification indicated in the degree certificate after the completion of the cycle of studies will be considered [300 to 360 credits (ECTS)];

3 – In the case of submission an Integrated Master's certificate [300-360 credits (ECTS)] and a pre-Bologna or 2nd cycle Master's degree, the final classification of the Integrated Master's will be considered;

4 – When candidates have more than one equivalent Bachelor's and/or Master's degree (equivalent number of ECTS), the Evaluation Panel will decide which academic degrees are best suited to the work plan and which should, therefore, be considered when for Criterion A. Other course(s) presented by the candidate can be considered for Criterion B – personal CV;

5 – The Evaluation Panel will award the minimum score (10 points on a 0 – 20 scale) required for obtaining a degree in Portugal when degree certificates/diplomas issued by foreign institutions are not recognized in Portugal and/or do not have the respective final classifications converted to the Portuguese evaluation scale. That is, when a declaration of honor is submitted clarifying that the recognition of the academic degrees and conversion of the final classification will be issued until the end of the application period (as well as proof that the recognition was requested).

12. Composition of the Evaluation Panel

Doctor Maryse Guedes (William James Center for Research; President)

Doctor Manuela Veríssimo (William James Center for Research; Effective member)

Doctor António J. Santos (William James Center for Research; Effective member)

13. Communication of results

The results will be notified no later than 90 working days after the closing date for submission of applications to the e-mail address provided by the applicants.

14. Deadlines and procedures for preliminary hearing, complaint, and appeal

After communicating the provisional list of the results, applicants who want to dispute the results have a period of 10 working days to request a preliminary hearing, in accordance with Articles 121 and following of the Administrative Procedure Code (CPA). The final decision will be communicated after the examination of the arguments presented at the preliminary hearing. After this communication, the selected candidate has 10 working days to accept, in written, the attributed fellowship. Otherwise, withdrawal or renouncement of the fellowship will be considered, unless a proper justification is presented.

After the final decision, a complaint may be placed within 15 working days or, alternatively, an appeal within 30 working days, both counting from the notification date. Applicants who wish to submit a complaint or an appeal should address their complaint to the Rectory of Ispa – Instituto Universitário.
